Silver the silver solution

**Silver Sol destroys
Bacteria, Viruses, and
Mold**

**It is your first line of
defense**

**On the skin
and
in the body**

Silver the silver solution

Dr. Gordon Pedersen
PhD Toxicology
Masters Degree in Cardiac
Rehabilitation and Wellness
Formulated over 150 products
Chief Scientific Officer of the New
Silver Product

Silver the silver solution

**For the first time
in history**

We and our children eat ten times more sugar, exercise ten times less, are exposed to lights and computer screens 5.6 hours a day, stay up late, wake up late, are exposed to 4000 new chemical toxins in the water and air that never existed before... and have homes that contain 325 cancer causing agents...

And we are surrounded by the continuous progression of rapidly mutating contagious diseases that we have created by the misuse of antibiotics and bio-terrorism

You are surrounded by contagious diseases:

Survival rates of contagious diseases in open air

Flu	up to 2 hours
Colds & SARS	15-100 minutes
Staph (MRSA)	up to 2 weeks
Small pox	1 year

Silver the silver solution

The EPA reports that approximately 40% of America's water supply is "UNFIT to DRINK"

Silver the silver solution

Did you know:
70 % of all contagious disease comes from hand contact ?

According to the AMA, the average doctor only washes his or her hands one in three patients

2nd most contagious vector: bottom of a woman's purse

Silver the silver solution

Silver the silver solution

It is also estimated that approximately 90% of the time the CAUSE of disease cannot be successfully treated by drugs or surgery.

© 2011 Silver Solutions, Inc. All rights reserved. www.silverconcept.com

Silver the silver solution

I believe the body will heal itself if you give it the proper tools

But our immune systems are being overwhelmed, overworked and over exposed to toxins, contagious disease and stresses of all kind

The average person needs a shield to reduce the risk of disease

© 2011 Silver Solutions, Inc. All rights reserved. www.silverconcept.com

Silver the silver solution

The immune system can only be asked to work so hard and for so long...or it will break down

We need a first line of defense (a shield) that will reduce the demand placed on the immune system so it can do what it was designed to do...

- Build healthy cells**
- Re-build healthy cells**
- Prevent disease**
- Repair damage**
- Be the propitiator of wellness throughout the body at the cellular level**
- Spend more of its time building healthy cells and body systems instead of battling the never ending stresses (contagious diseases)**

© 2011 Silver Solutions, Inc. All rights reserved. www.silverconcept.com

The perfect shield would destroy the causes of disease

Bacterial **staph, MRSA, pneumonia**

Viral **flu, colds, herpes**

Fungi **candida,**

Parasites **leishmaniasis**

And function as a water purifier and hand sanitizer

Silver the silver solution

amazonconcept

Silver Sol is the Perfect Shield because it destroys the causes of disease and helps prevent resistance

Ultradilute Ag-aquasols with extraordinary bactericidal properties: role of the system Ag-O-H₂O

R. Roy*, M. R. Hoover***, A. S. Ghalla*, T. Slawetz*, S. Day*, W. Cao*, L. Li* and S. Bhaskar*

We first establish the features on the role of ultradilute aquasols as extraordinary powerful, bactericidal virgicidal agents equal to most commercial antibiotics. These findings provide the rationale for a major role for inorganic materials to contribute the right to combat the need for new, safer health systems. The focus of this preliminary paper is exclusively on the chemical species of 2 phase aquasols at ultradilute concentrations near 1. All species destroy the solid and liquid phases for the first time in detail using standard materials science analysis tools. The solid phase is analyzed using TEM, HRTEM, XRD, SEM, and STM, and the liquid water phase is analyzed using FTIR, UV-Vis, and Raman spectroscopy. There are at least three possible phases in the system Ag-O₂-Ag, Ag-O₂ and Ag₂O₂ which are stable in air. In an aqueous environment between 0 and 100°C there is evidence that various combinations of metal, oxygen, and possible hydroxide complexes exist. Secondary data from Raman and UV-Vis spectroscopy prove intense changes in the structure of the water near. These results, in a preliminary way, are parallel to the many empirical observations made by physicians for the last 100 years on the side of metallic silver and water in various combinations for human health.

Silver the silver solution

Silver the silver solution

Antibiotics and Silver Sol
Antibiotics are failing because bacteria have become resistant

"This silver has helped reverse antibiotic resistance and made all categories of antibiotics more functional"

RESEARCH COMMUNICATIONS
Bactericidal activity of combinations of Silver-Water Dispersion™ with 19 antibiotics against seven microbial strains
A. de Lencastre, J. Tenreiro and R. W. Coombs
Journal of Antimicrobial Chemotherapy, Volume 55, Number 4, July 2005, pp. 645-650
doi:10.1093/jac/kfi100

The emergence of antibiotic resistance has become a major public health problem. The World Health Organization (WHO) has estimated that 25 million people die each year as a result of antibiotic resistance. The WHO has also estimated that the global burden of disease due to antibiotic resistance is 10 million deaths per year. The WHO has also estimated that the global burden of disease due to antibiotic resistance is 10 million deaths per year. The WHO has also estimated that the global burden of disease due to antibiotic resistance is 10 million deaths per year.

www.silverconcept.com

According to:
 (Current Science, 91(7) Oct. 2006)
Silver Sol “has no bacterial resistance”
Silver Sol was tested against 7
bacteria in combination with 19
antibiotics...
“Out of 96 tests, five were
synergistic, and 89 were additive.”
In the synergistic tests the antibiotic
was made ten times more effective
at killing bacteria, because “the
Silver killed the residual bacteria
that the antibiotic couldn’t.”

“Silver Sol is extraordinary,
powerful, bactericidal and equal to
most prescription
antibiotics...without resistance”

Ultradilute Ag-aquasols with extraordinary bactericidal properties: role of the system Ag-O-H₂O

R. Roy*, M. E. Hoover**, A. S. Bhatta*, T. Slavicek*, S. Dey*, W. Cao*, L. Li* and S. Bhaskar*

We first reported the literature on the use of ultradilute aqueous silver as extraordinary powerful bactericidal agents equal to most commercial antibiotics. These findings provide the rationale for a major role for silver in medical research towards its clinical use as a disinfectant for the field for skin, oral health, wounds. The focus of this preliminary paper is exclusively on the aqueous solution of 3 phase ultra dilute concentrations near 1, at ppm. We analyze the solid and liquid phase for the first time in detail using identified materials science analysis tools. The solid phase is analyzed using XRD, TGA, IR, SEM, and TEM and the liquid phase is analyzed using FTIR, UV-Vis, and Raman spectroscopy. There are at least three crystalline phases in the system Ag-O₂, Ag₂O, Ag₂O₂, and Ag₂O₃ which are stable in air in an aqueous environment between 0 and 100°C. There is evidence that various combinations of metal oxides, and possible tetrahydroxide complexes exist. Similarly, data from Raman and UV-Vis spectroscopy show drastic changes in the structure of the water host. These results, in a preliminary way, are related to the more empirical observations made by physicians for the last 100 years on the use of metallic silver and water in various combinations for human health.

- (Pg. 19 US Patent 7 135 195) Silver Sol**

“The data suggests...this invention exhibits equal or broader spectrum of activity than any one antibiotic tested. Antibiotics generally have restricted antibacterial spectra limited to susceptible organisms, but as the data demonstrate, the silver composition of the present invention is equally effective against both gram positive and gram negative organisms. This data suggest that with the low toxicity associated with silver, in general, and the broad spectrum of antimicrobial activity of this silver composition, this preparation can be effectively used as an alternative to antibiotics.”

Silver the silver solution

Silver Sol Mechanism of Action
There are many ways silver sol kills pathogens: I will mention three

1. As a silver oxide
(contact kill by removing an electron)
2. Viral disruption
(preventing viral replication)
3. Resonance
(A germicidal frequency that destroys pathogens)

Silver the silver solution

Letter to CDC for the treatment of tuberculosis

“Earlier today, we received a request from the Office of the Vice President of the United States of America, to send a protocol for XDR-TB (Tuberculosis) to your office. The active ingredient is a Silver aquasol (US Patent #9135195), which has been shown to kill tuberculosis in vitro (1). This protocol utilizes a silver aquasol in an inhaled mist, to access the mucous layer of the lungs, while concomitantly utilizing an oral dose which will be absorbed into the blood stream and distributed to the lungs. The in vitro testing (attached) demonstrates a kill rate of 97.3% in 45 minutes (1).”

www.silverconcept.com

Silver the silver solution

Letter to CDC (continued)
"Silver Aquasol protocol for XDR-TB (Tuberculosis)"

1. Drink a one ounce dose (liquid) of silver aquasol
2. Immediately following the oral dose, begin the inhalation of one ounce of silver aquasol (liquid from a nebulizer).

This should be done twice a day.

Sincerely,

**Gordon Pedersen Ph.D. Toxicology,
 M.S. Cardiac Rehabilitation and Wellness,
 Special Operations Medical Association."**

H5N1 Bird Flu Prevention Study
 (Alternative Medicine Journal, Pedersen, 2008)

Mice take the equivalent dose of 1 tea spoon of Silver Sol twice a day for one week prior... To infection of a lethal dose of H5N1 Bird Flu

Results:
 100% increase in the ability to survive H5N1

Conclusion: taking silver Sol daily can help prevent death from the bird flu

H5N1 Avian Influenza Animal Study

H5N1 Avian Influenza
 Percent improvement in surviving a fatal bird flu infection:

100%

Mice were given Silver Sol twice a day

H5N1 has mutated to be infective 2-10 days before you get the symptoms

Results of Bird Flu Prevention Study

Placebo fed mice	30% survived
Silver Sol fed mice	60% survived

Toxicity control mice were fed 10x, 100x and 200x the normal dose with no toxicity to mice (in fact they thrived indicated by wt. gain)

Conclusion: Silver Sol can safely double your chances of surviving an H5N1 exposure if you have it circulating inside you when you are exposed

Effect of Prophylactic Treatment with Silver Sol Solutions on an Avian Influenza A (H5N1) Virus Infection in Mice

Gordon Pedersen Ph.D., Robert Sidwell Ph.D., Colonel Alan Meloff DO, MPH
Colonel Robert Saum Ph.D., Keith Moeller, William Moeller

• **Abstract**

Female BALB/c mice were pre-treated with ASAP (Silver Sol) for seven days prior to being challenged with Avian Influenza (H5N1). The results were compared to control mice and Ribavirin treated mice to determine survival and prevention rates of Silver Sol against Avian Influenza (H5N1). Groups of 19 mice were treated by oral gavage (p.o.) with Silver Sol, twice daily for 7 days, then infected intranasally (i.n.) with an LD70 dose of influenza virus, then treated an additional 10 days. As controls, 35 mice were treated with water using the identical schedule. Oxygen saturation (SaO₂), necropsy for lung scores, and lung viral titers were obtained to quantify ongoing tissue damage.

As a result of this experiment, 60% of the infected mice treated with Silver Sol (10 ppm) survived compared to the 30% in the placebo-treated controls. This is a 100% increase in the ability of mice to survive an H5N1 Avian Influenza challenge. Results of this study demonstrate suggested inhibitory and preventive effect on H5N1 Avian Influenza infection as seen by either less animals dying in the treated groups than in the placebo-treated controls, delay in mean day to death, lessened SaO₂ decline, modest inhibition of lung consolidation, and/or lessened virus titers in the lungs. In addition there was no sign or symptom of toxicity from the usage of Silver Sol in toxicity control mice, even at extreme doses. If the human protection were similar to that found in mice, it could provide a significant advancement in the prevention of a potential pandemic event.

Malaria

- Over one million children under five will die from malaria this year 80% will be from Africa
- It kills 3000 children a day
- 2 will die by the time I have finished this slide (1 min)
- (Epidemiological Record (2) 72)

Silver the silver solution

Drugs have become less effective. It takes three drugs in combination to help.

Cost is not the only problem. 38% of all malaria drugs sold in Africa are counterfeit (fake) and are sold on the black market, leaving 200,000 children dead each year even though they paid for the drugs and took them hoping for a cure but are getting instead a sugar pill.

Silver Sol

- Is active against the malaria plasmodia (US Patent)
- Has been approved as a drug to be used for Malaria in Ghana (FDA)
- Has import approval (Import registration)
- There are over 50 clinical tests demonstrating 100% success against Malaria (one ounce per day)
- Will prevent and help reverse symptoms of malaria in an average of 5 days (US Patent)
- Doctors reported a 100% success against malaria and are begging to have ample supply of Silver as a prevention and treatment.
- 8 ounces of Silver Sol can save one child

Our Research On Malaria Demonstrates the Following:

"The composition (silver) was used both internally and externally as an alternative to traditional antibiotics. The ailments treated included malaria, upper respiratory tract infections, urinary tract infections, sinusitis, vaginal yeast infections, eye, nose and ear infections, cuts, fungal skin infections, and sexually transmitted diseases such as gonorrhea." (Patent # 7135195)

This means you will be helping with all these conditions at the same time

Silver Sol Gel is effective against Leishmaniasis (William Beaumont Army Medical Hospital, 2006)

Silver the silver solution

ADAM

How does the gel feel ?

- Non greasy
- Non sticky
- No alcohol
- A good moisturizer
- Contains 98.6% silver sol at 24 ppm with gelling agents
- Kills approx. 99.99 % of all pathogens on the hands and skin for 4 hours (Surgeons Scrub test)

Legal claim for the gel:
Helps improve natural healing

Silver the silver solution

ADAM

Silver Gel Stability (18 month test)

USP Preservative Challenge Test Results (Analytical Resources Laboratory)

18 months after production 24 ppm silver gel kill rates:

- 99.6 % kill in 1 hr (Staph)
- 99.1 % kill rate in 30 min (E. coli)

Anti-Aging Potential

Since bacteria and yeast are the primary causes of deepening wrinkles, cellular damage, tissue degeneration and serve as an obstacle to the immune system, stopping the growth of these pathogens deep inside, can stop the premature aging (degeneration) of cells, tissues, skin, vital organs, brain, circulatory and other systems of the body at the cause of the problem.

Silver the silver solution

There are thousands of healthy ways to use Silver Sol

Here are 40 of my favorites:

Silver the silver solution

Dr. Gordon Pedersen

Silver the silver solution

Wound Healing

Wounds heal three times as fast because the immune system

Can focus on the wound healing more than infection control

burns	bruises
cuts	lacerations
infections	sunburns
radiation burns	rashes (bacterial)

Also works on:

eyes	ears
nasal/sinus	throat/lungs
skin	intestines
mouth/heart	organs of excretion
vagina	rectum

Silver the silver solution

Singapore Health Ministry and The Department of
Homeland Security Wound Care Study
(Dr. Soo Keoung, Head of the Food and Drug
Board)

Results

- Silver sol was three times better than any other drug or silver at healing wounds: colloidal or ionic
- Three times faster killing of bacteria (gram neg and gram positive)
- Three times better wound healing (time to closure)
- Three times better survival rates in mice (11.3 days vs 3.7 days)

Silver the silver solution

The Singapore Health Ministry

Silver Sol was boiled and then freeze-dried and still out-performed any drug or silver composition for wound healing

silverconcept

Silver Sol Water Purification

Research performed by Gerrard Yeates
Director for Central Utah Water Project

Silver Sol purifies raw river water 99.99%

8 oz glass 4 drops of water in 1.4 minutes
34 oz of silver sol purifies 50 gallons of storage water in 10 minutes and lasts for years

Dental Research Cibron Clinical Consultants

- Oral surgery: gel applied underneath the flap (periosteum) and around the exposed bone, then sutured in place
- Results: 92% experienced a marked decrease in both pain and swelling within the first 24 hours post op
- And healed three times as fast
- * No infections

Dental (continued)

- Dental implants
- Bone augmentation and sinus lifts
- Periodontal surgery
- Gingival curettage
- Root amputation
- Failed root canals (apicectomy retrofill)
- Restorative procedures cavities (100% no infection or temperature sensitivity)
- Crown and bridge procedures improved
- Dentures disinfection and odor elimination

Silver the silver solution

“It is our clinical experience that the above findings were highly unusual and appear to be directly attributable to the use of the *Silver Sol* Product” (Dr’s Andrew Willoughby and Derek Clease)

These 308 clinical trials have been used as the basis of 4 new dental patents for: Implants and dental surgery and clinical trials ongoing for “localized dental cancers”

Silver the silver solution

■

**Dr Ken Friedman M.S. Ph.D.
Harvard, MIT**

“Based on my research, I have found the new silver solution to be a safe and effective weapon against harmful yeasts, viruses and bacteria. Its low concentration, high effectiveness and lack of side effects make it an ideal supplement for the prevention and care of conditions associated with these pathogens. (Wellness Report, 2007)

Silver the silver solution

Silver Sol Destroys:

- Bacteria
- Viruses
- Mold

**You make a living by what you get
You make a life out of what you give
Give the gift of the perfect shield**

Silver the silver solution

10 times more effective at killing 300 times more bacteria than any of our competitors product (ionic or colloidal)

In metallic form is safe, catalytic and more effective

Reportable spill level is 12,500,000 gallons (EPA registered spill level)

An oil tanker holds 1 million gallons

© 2008 Silver Solutions, Inc. All rights reserved. www.silver-solutions.com

Silver the silver solution

**Approved by the EPA in four different certificates
EPA registration # 73499-2**

So those that are pushing for regulation by the EPA don't understand that we are already approved by the EPA

Pesticide groups are pushing for this regulation so they don't have to compete with an all natural silver sol that can destroy pests (bacteria, mold, viruses in the environment)

Silver the silver solution

New Ideas

Paint: Mix silver sol with paint for anti-bacterial paint in homes with mold or children or pets

© 2008 Silver Solutions, Inc. All rights reserved. www.silver-solutions.com

Dr. Rustum Roy

“Not only is this radically different antibiotic material more or less equal to the traditional biochemical antibiotics, it has the unique advantage that **bacteria do not mutate to destroy its activity...**

Moreover, when used alongside a traditional antibiotic, the silver aquasol has a synergistic effect thereby extending the life of the efficacy of several antibiotics **tenfold...**

Such biological data provide the paradigm-challenging justification for studying this extraordinary family of materials as **potential leaders of a new class of health vectors**”
(Current Science Investigation, 2007)

How to use it with other products:

The only thing that should not be mixed with it is salt.

Chloride will form a precipitate and you will lose some of the benefit.
